

Single-phase AC Electric Vehicle Wall box

7kW, 32 A, 1-phase

IP54: dustproof and waterproof

Easy to install, easy to maintain

Single-phase AC Electric Vehicle Wall box

Item (Benchmarking)	SPECIFICATIONS
Output power	7kW, 32 A, 1-phase
Input voltage	230 VAC (1-phase)
Grid connection	TN and IT
Input cable	Hardwired flex cable and wiring (THW / VCT - 3*10mm²)
Output cable	5 meters cable length
Connectivity	/
Smart Charging App	/
LEDs	Dynamic LEDs displaying charging status
Dimensionsand weight	Pile body outline dimensions : H 385mm * W 265mm * D 130mm Weight: <10kg
Enclosure	IP54: dustproof and waterproof
Protection	Overvoltage protection, undervoltage protection, overload protection, short circuit protection, grounding protection, overtemperature protection, low temperature protection, surge protection, input PE line breakage alarm, leakage protection(Type A+DC6mA)
Firmware and protocols	Comply with CE standards
Accuracy	/
Temperature range	From -30°C to +55°C
Standards andcertifications	CE certified
